-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action

1. Claims 1-33 are presented for examination.
2. Information disclosed and listed on PTO 1449 has been considered.

Claim Rejections – 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

4. Claims 1, 10, 18, 25, 26, and 33 are rejected under 35 U.S.C. § 102(b) as being anticipated by Papamichalis, "The TMS320C30 Floating-Point Digital Signal Processor", 1988.

A) As to claims 1, 18, and 26, Papamichalis discloses the invention as claimed. There is a microprocessor (the TMS320C30 Digital Signal Processor) connected to a first memory through a first bus and to a second memory through a second bus (see Fig 3, the first and second memories would be connected to the 'Primary' and 'Expansion' bus which are the first and second buses), the microprocessor having a bus interface unit that comprises two switching circuits (see Fig 3 Ref 'MUX') that allows the program bus (Fig 3 Ref 'PDATA BUS' and 'PADDR BUS') and data bus (Fig 3 Ref 'DDATA BUS', 'DADDR1 BUS') to be

selectively connected to the first and second bus in accordance with a program access request.

- B) As to claims 10, 25, and 33, Papamichalis does not limit the type of memory that can be connected to the primary or expansion bus, thus they could be volatile or non-volatile memories.

Allowable Claims

5. Claims 11-17 are allowed.
6. Claims 2-9, 19-24, and 27-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin L. Ellis whose telephone number is 571-272-4205. The examiner can normally be reached on weekdays from 6:00AM-2:30PM.
